P. O. Box 80
Sigurd, Utah 84567

OCT 21 1992

Your plan amendment concerning the change in the area included in your mine is approved subject to the following conditions:

1. Prior to being cut for installation of a cattleguard or gate, the fence shall be braced sufficiently such as to maintain the tension.
2. If a gate is installed, when cattle are present the gate shall remain closed, except for those times when it must be opened to allow for passage of vehicles and other equipment.
3. No mining shall occur below the elevation of the bottom of the large, dry wash located east of the county road.
4. Heavy equipment signs (two) shall be erected on the county road for each direction on either side of the mine.
5. The necessary permits shall be obtained from Emery County prior to opening the new access road located on the east side of the county road.
6. A sign identifying the mine and the operator shall be erected adjacent to the mine. The letters on the sign shall be of sufficient size such that the sign can be read from the county road.
7. The buffer zone between the pit and the county road shall continue to be in effect.
8. No more than two acres of unreclaimed disturbance shall exist on the west side of the county road at the time the operator opens up the mine on the east side of the county road.

Approval of this plan amendment will not now or in the future serve as a determination of the ownership or the validity of any mining claim to which it may relate. You shall comply with all state and local government rules and regulations.

You have the right to appeal to the Utah State Director, Bureau of Land Management, in accordance with 43 CFR 3809.4. If you exercise this right, your appeal, accompanied by a statement of reasons and any arguments you wish to present which would justify reversal or modification of the decision, must be filed in writing within 30 days from the date of this decision. This decision will remain in effect during the appeal unless a written request for a stay is granted.
